

Appl. No. 10/033,426
Amdt. dated October 27, 2004
Response to Notice of Allowance September 30, 2004

PATENT

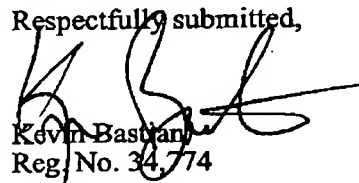

REMARKS/ARGUMENTS

In reviewing the present application after receiving the Notice of Allowance, applicants noted that paragraph [0037] of the application contains a clear typographical error. That paragraph refers to Figure 5, which is a diagram of the variation of angular velocity of the rigid wall segment 47 in the cartridges of the invention. The brief description of Figure 5 in paragraph [0019] (page 4, lines 24-26) clearly identifies Figure 5 as describing the variation of angular velocity of the rigid wall segment 47. Paragraph [0037], however, erroneously refers to oscillation of cartridge 42. This clear typographical error is corrected by this amendment.

CONCLUSION

Entry of this amendment is respectfully urged since it merely cures a formal defect in one of the claims and does not touch the merits.

Respectfully submitted,

Kevin Bastian
